

Product of choice for a multitude of residential, commercial and industrial lighting applications, our transformer is the **most efficient compact-sized lighting transformer** on the market today. Rated for both outdoor and indoor use, our solution is designed to respond to the lighting industry's new energy and reliability requirements.

**24 V
DC**

INDOOR/
OUTDOOR

DIMMABLE

MADE
IN NORTH
AMERICA

NEMA 3R
ENCLOSURE

FEATURES

- 1 Compact and lightweight**
Easy to integrate into any application or design
- 2 Industry-leading technology**
Designed for longest operational hours
- 3 Dual protection**
Two circuit breaker protection levels on the primary and secondary winding, to protect both load and transformer
- 4 NEMA 3R Enclosure**
High-quality metal case designed to withstand the toughest environments, including humid conditions
- 5 Junction box**
Integrated junction box with knocks-outs and hinged door for clean, safe and easy installation

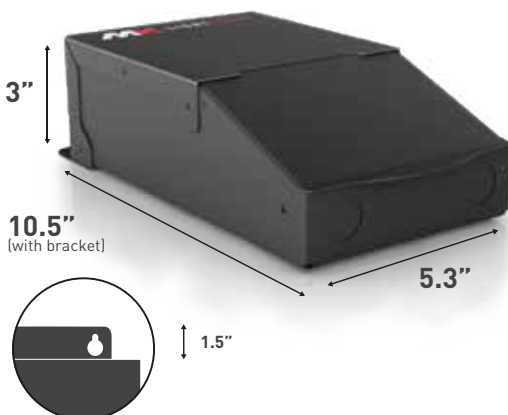

SPECIFICATIONS*

Max Load	300 W
Input Voltage	120 V
Nominal Output Voltage	24 V
Output Type	DC
Output Voltage Open Circuit	24.7 V / 26.7 V with Tap
Output Voltage Full Load	22.3 V / 23.9 V with Tap
Input Current Full Load	2.81 A
Output Current Full Load	13.45 A
Efficiency	89 %
Thermal Class	B130 °C
Leads Primary	PVC 600 V #18
Leads Secondary	PVC 600 V #12
Circuit Breaker	Primary & Secondary Manual Reset
Dimensions (L*W*H) with Bracket	10.5 x 5.3 x 3 inches
Bracket (L)	1.5 inches

*The specifications are subject to change without notice.

FORMAT

24 V DC LIGHTING TRANSFORMER

**THE MOST
EFFICIENT
COMPACT-SIZED
SOLUTION ON
THE MARKET**

- High-performance North-American made lighting transformer
- Superior product reliability
- Increased energy efficiency
- Enhanced dimming stability
