

## COB LED Strip

Note: all dimension units are millimeters.

### SPECIFICATIONS

1. 8MM LED Tape
2. 512 Chips /M
3. Voltage: 24V
4. Beam Angle: 120°
5. Color Temperature: 2700K/3000K/4000K/6500K
6. Luminous Flux - lm/m:  
2700K:800lm/m - 3000K:860lm/m 4000K:970lm/m  
- 6500K:900lm/m
7. IP: 20
8. RA: >90
9. Output in W/m: 10.8W/m
10. Cutting distance: 62.5mm (2.46inches)
11. Is compatible with most remotes and controls

**Bending method**  
Minimum bend diameter 10cm

### APPLICATIONS

COB Lighting applications include display lighting, edge lighting, cove lighting, backlighting, retail lighting, and accent lighting for design and architectural applications in either homes or offices. The applications are endless.
