

SPRCIFICATION SHEET

DC5V 160LED WS2812 ADDRESSABLE LED STRIP

1. Product Parameter:

LED: COB LED

PCB: FPCB, 5MM width

IC: WS2812 80ICs/mtr

Gray Scale&pixels: 256,80Pixels/mtr

LED Qty: 160LEDs/mtr

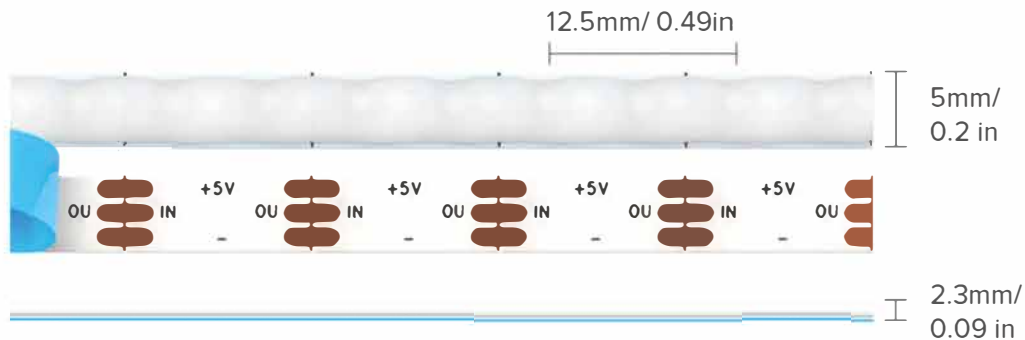

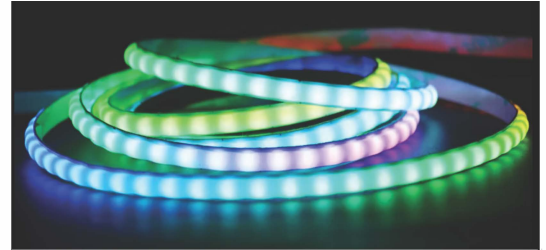

Beam Angle: 120°

Color: Dream Color

Working Voltage: DC 5V

Watts: 13.0W/mtr

IP Rating: Non waterproof IP20 or IP67

2. Product Descriptions:

Each 2 led controlled together. Controlled by controller, each IC can work properly with the corresponding led to make different effects, such as color gradients, flash, chasing, transition, water, scanning, etc.

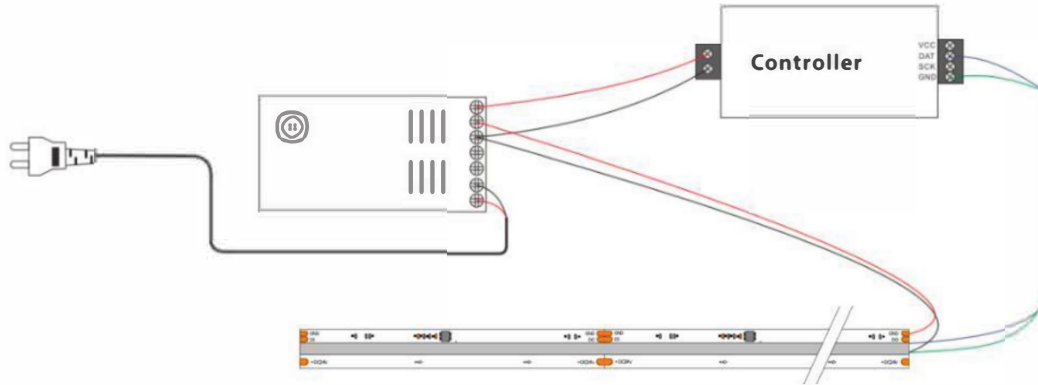

High brightness COB Leds and durable FPCB which will have less heat dissipation and no glare. In the same time, ELV operating voltage 5V will make it more safety.

3. Applications:

Fairground, theater, hotel, nightclub, KTV
Advertising board/wall, signboard
Residential building indoor decoration
Car decoration

Edge-Lighting and under water lighting

4. Installations:

4. Package:

5mtrs/reel, anti-static bag packing, 0.25kg/reel

Carton size: 45×33×31cm

Qty/ctn: 60reels/ctn

G. W.: 8kg/ctn
